Carrier 40 Specs: 36.6" (H) x 26.3" (W) x 33.6" (L) | 159.3 lbs

LocknCharge makes life easier.

Top Loading Cart Design. Access from multiple sides at once allows for quicker distribution of devices, plus no more bending down to remove devices from a bottom shelf. Better yet, the top-sliding lid doubles as a work surface. Cabinet style carts can take 2-3 times longer to wire, and the removable panel in the bottom gives full access to power cords in one fell swoop.

Organized Cables and Hidden Bricks. Minimize Cart clutter by clipping down those gosh darn cables once and for all. Cables stay organized in the unique side channel, allowing you to plug in devices quickly after each use. Power bricks are stored in the bottom of the Cart, making sure they don't sprout legs and wander off.

Baskets by LocknCharge. These ain't your grandma's Longaberger baskets. Slotted device Baskets by LocknCharge make device deployments faster, safer and more efficient.

External Charging Status Display. Most of us don't have x-ray vision—but with our Carrier Carts, it's super easy to know the charging status of your devices through the external ECO Safe Charge™ display.

Smarter Workflow

Save Time, Save Cheddar. Our goal is to save you valuable time, each and every day, thus saving you some serious cheddar. Our Baskets enable hand-out and pack-up of devices in less time, allowing you to forget about charging and focus on your goals.

Perfect for Shared Use. Not enough devices to go around? No problemo. You can now easily share a small handful or a whole dang cartload of mobile devices between multiple areas without the fuss. When teamed up with our baskets, our lightweight, easy-to-maneuver Carts allow you to transport mobile devices quickly, safely and easily.

Additional Key Benefits

Magical Unicorn Lifetime Warranty. All of our products are now fully backed by a lifetime warranty on the main frame, electrical and all other components.* It's a one-of-a-kind guarantee that's as unique as a magical unicorn.

World-Class Customer Support. Our helpful and friendly Customer Support team will promptly assist with any product issues or questions that may arise.

Compatible & Efficient.¹ Larger devices never have to feel left out. Carrier Carts can accommodate and charge 20, 30 or 40 of almost any device, with or without cases.

Top Sliding Lid Doubles as Work Surface. The secure lid can be used as a work surface in space-strapped rooms.

Secure. Protect your device investment without worry. Lock away devices in the storage area with a padlock. An optional anchor kit locks the whole Cart to the floor.

No Keys to Worry About. Our Carrier Cart comes with a high-quality, combination padlock.

Safe Power Management. Never blow a fuse again. ECO Safe Charge™ handles power requirements of almost any device by staging the availability of power. Plus, it ensures that devices are not overcharged, increasing their longevity.

Future-Proof. Think inside the box, and you won't be stuck with a bunch of outdated Carts. Removable racks and Baskets allow this Cart to adapt to future needs as devices change or new technology is added.

External power outlet. With an external power outlet you can easily charge devices like a projector or other peripherals.
